AWARD

Ideathon Came third place in Junkathon where I proposed a solution to reduce plastic waste using pyrolysis techniques and also using the byproduct of that process

CODING PROFILE

LeetCode: Highest Rating: 1000
Codeforces: Highest Rating: 900

PROJECTS

Blog Application

[Blog-Website Repository](#)

I was responsible for both the front-end and back-end development of the application. On the front-end, I used HTML, CSS, and JavaScript to create an intuitive and responsive user interface. On the back-end, I used PHP to handle server-side logic and MySQL for database management. This project helped me strengthen my web development skills and gain practical experience in full-stack development.

EXPERIENCE

Promotion lead

Jan 2022 - 2023

I was the Promotion Lead in LearnIT - The official club of IT

Data Management

Jan 2024 - present
